

Pharmaceutical Research Facility Laboratory Animal Care Manager

The Texas A&M Health Science Center Irma Lerma Rangel College of Pharmacy, located in Kingsville, Texas, is seeking a motivated individual to serve as **Laboratory Animal Care Manager** for the Department of Finance and Administration. The Manager will oversee and direct the Pharmaceutical Research Facility for the College of Pharmacy. The position requires strong organizational skills, the ability to interact effectively with a diverse group of individuals, (Ph.D., M.D., D.V.M.) research personnel and university system departments. Must be able to communicate ideas and effectively guide the program in positive directions. A team attitude and professionalism is required. Must be service oriented to the needs of all research personnel.

Required Education and Experience: BA or BS in Biomedical Science, Animal Science, or related area. Five years of relevant experience (three years with a masters) to include minimum of two years experience at an animal care facility as a supervisor of animal care staff or managing a research facility. Some experience with IACUC, establishing policies, protocols and procedures, and maintaining records. The applicant must be knowledgeable in laboratory equipment, computer experience, and appropriate use of PPE. Applicant must possess a valid driver's license. Ability to multi-task and work cooperatively with others, perform all tasks and job responsibilities safely without injury to self and others in compliance with A&M System and HSC guidelines.

Preferred Education and Experience: Masters Degree in Biomedical Science, Animal Science, or related area with a minimum of three years of relevant experience may substitute for each year of education. Five years of experience as a lab manager. Experience in animal handling or animal care. Knowledge on various species of animals and the characteristics of each.
