Senior Clinical Laboratory Animal Veterinarian

The University of Texas Medical Branch at Galveston is soliciting applications for the position of Senior Clinical Laboratory Animal Veterinarian to participate in oversight of an AAALAC accredited animal care and use program. Responsibilities include monitoring and surgical support for various species including but not limited to nonhuman primates, sheep, pigs, dogs, rabbits, and ferrets; provision of medical care, participation in development and implementation of preventive medicine and health surveillance programs, assure compliance with federal regulations and guidelines, participation in training and consultation for animal research personnel and serving on the Institutional Animal Care and Use Committee.

Qualified applicants must have a DVM or equivalent degree from an AVMA accredited veterinary school and licensed to practice veterinary medicine in the United States with 5+ years experience in the specialty of laboratory animal medicine. Ability to skillfully interact with diverse investigators is essential. The research program offers the successful candidate opportunities for scholarly activity and professional growth.

Salary will be commensurate with qualifications and experience of the candidate. UTMB is a component of the UT System and offers a competitive benefit package. Review of applications will begin immediately and will continue until the position is filled.

Please apply online at www.utmb.edu/hcm to Job Opening #22766 and forward your resume to Dr. William Masters, wgmaster@utmb.edu
